

Winston Iskandar

+1 (310) 491-8158 | winston1@stanford.edu | [linkedin.com/in/winstoniskandar](https://www.linkedin.com/in/winstoniskandar)

EDUCATION

Stanford University

Stanford, CA

4.0/4.0 UW, Major: Computer Science/Math, Stanford BASES, Stanford Blockchain, Stanford AI Alignment)

EXPERIENCE

Blockchain & DeFi Research

Nov 2025 – Present

Stanford Advanced Financial Technology Lab

- Analyze Hyperliquid market microstructure to identify latency inefficiencies and liquidity imbalance using high-frequency data
- Develop automated trading models to profit from cross-chain arbitrage. Advised by Prof. Ruizhe Jia

Music AI Research

Feb. 2023 – Present

MIT Collaborative Music Lab

- Co-lead developer for MIDI Coder - web app that features live coding input, visuals display, & a camera interface that recognizes hand gestures in real time.
- Used ML/Computer Vision to adjust pitch & velocity based on hand gestures
- Research paper in the works. View TEDx talk [here](#). Advised by Dr. Ian Hattwick

Human-AI Interaction Research

Feb 2022 – Present

Dartmouth's Thayer School of Engineering Empower Lab

- Develop AI minigames using various tools such as image processing, natural language processing (NLP), and machine learning to educate and increase AI literacy for children
- Co-author of an AI literacy paper published to ACM CHI 2024. Advised by Prof. Elizabeth Murnane

TECHNICAL SKILLS

Languages: C++, Python, Java, SQL, JavaScript, HTML/CSS

Developer Tools: Google Cloud Platform, Amazon AWS, Microsoft Azure, HTML, Node.js, Git

Libraries: TensorFlow, Keras, OpenCV, AutoCAD, pandas, NumPy, Matplotlib

PROJECTS

GroceryBuddies | *Swift/XCode, Java/Android Studio/JS, Python/Django*

- iOS/Android application that connects community volunteers with at-risk individuals to help deliver groceries and run errands while promoting local and family-owned businesses
- Awarded 1st Place in National Congressional App Challenge by Ted Lieu's Congressional District (CA-33). Invited to #HouseOfCode in Washington D.C. to present my app to Congress

AWARDS

- 2 time USA Computing Olympiad (USACO) Platinum Rank - Top 2.7% pre-college coders worldwide. (2023/2024)
- 4 time Emergent Ventures Grantee - Awarded \$40k+ in startup funding from the Mercatus Center backed by the Thiel Foundation & Schmidt Futures to pursue an AI literacy startup + Awarded all-expense paid trip to Arlington, VA for annual EV Winner Recipient Conference
- Jane Street FTTP - 60 students selected / 20,000+ (2026)
- Google Scholar - \$10k in funding (2025)
- First Robotics World Championships Qualifier - Team 294. Ranked top 6 / 600 teams at Worlds. (2024)
- 1st Place National Congressional App Challenge (2021)
- 2x 1st Place LA Elite Int'l Piano Competition - Invited to NYC for solo piano debut at Carnegie Hall (2022/2023)
